

kdb::tools::PluginDatabase

```
classDiagram
    class kdb_tools_ModulesPluginDatabase["kdb::tools::ModulesPlugin Database"]
    class kdb_tools_PluginDatabase["kdb::tools::PluginDatabase"]
    kdb_tools_ModulesPluginDatabase --|> kdb_tools_PluginDatabase
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'kdb::tools::ModulesPlugin Database'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'kdb::tools::PluginDatabase'. This indicates that 'kdb::tools::ModulesPlugin Database' inherits from 'kdb::tools::PluginDatabase'.
