

\\dotool s BackendInterface

\\dotool s SerialInterface

\\dotool s MountBackend
Interface

```
graph BT; A[\\dotool s MountBackend Interface] --> B[\\dotool s BackendInterface]; A --> C[\\dotool s SerialInterface];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled '\\dotool s MountBackend Interface'. Two blue arrows point upwards from this box to two other boxes above it. The left box is labeled '\\dotool s BackendInterface' and the right box is labeled '\\dotool s SerialInterface'. This indicates that the MountBackendInterface is a base or parent class for both the BackendInterface and the SerialInterface.
