

kdb::NameIterator

```
classDiagram
    class kdb__NameReverserIterator["kdb::NameReverserIterator"]
    class kdb__NameIterator["kdb::NameIterator"]
    kdb__NameReverserIterator --|> kdb__NameIterator
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'kdb::NameReverserIterator'. A red arrow points vertically upwards from the center of this box to the center of a white box labeled 'kdb::NameIterator' positioned above it. This indicates that 'kdb::NameReverserIterator' inherits from or specializes 'kdb::NameIterator'.
